

POLYTURF PLUS
Pad and Pour

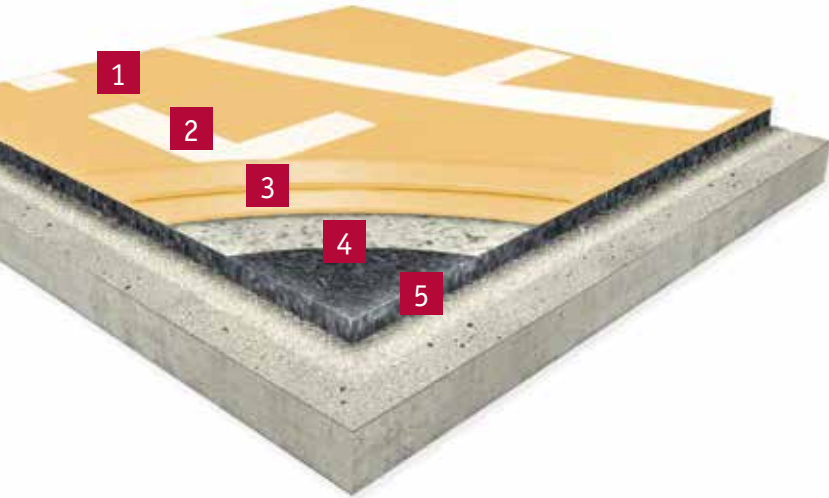

A Seamless Sports
Surface for Durable
Performance

PolyTurf Plus

Pad and Pour

PolyTurf Plus makes durable sports performance look simple. Behind this seamless surface is GREENGUARD Gold certification, superior load tolerances, and shock-absorbing sports properties. Its appearance is simple; its performance is anything but.

- 1 Water-Based Aliphatic Coating**
PolyTurf Plus Pad and Pour uses a spray or roller-applied coating for optimal game performance and stain resistance.
- 2 Chemically Bonded Game Lines**
Meticulously applied polyurethane marking paint creates precise and permanent game lines.
- 3 Formulated Elastomeric Resin**
PolyTurf Plus Pad and Pour uses a resin layer for exceptional ball rebound and extra durability.
- 4 Two-Component Seal Layer**
A two-component coating seals shock pad pores for a smooth and seamless floor.
- 5 Recycled Rubber Shock Pad**
100% recycled rubber provides cushion and shock absorption.

Sports Performance

PolyTurf Plus Pad and Pour meets all the requirements of ASTM F2772, including force reduction, ball rebound, surface finish effect, and vertical deformation.

Health and the Environment

PolyTurf Plus Pad and Pour embodies Tarkett's four categories of sustainability, providing not only superior sports performance, but stewardship of the environment and care for individual health.

- Contains natural materials
- No California Prop. 65 chemicals
- No formaldehyde
- Free of heavy metals

- Uses rapidly renewable materials
- A history of conservation

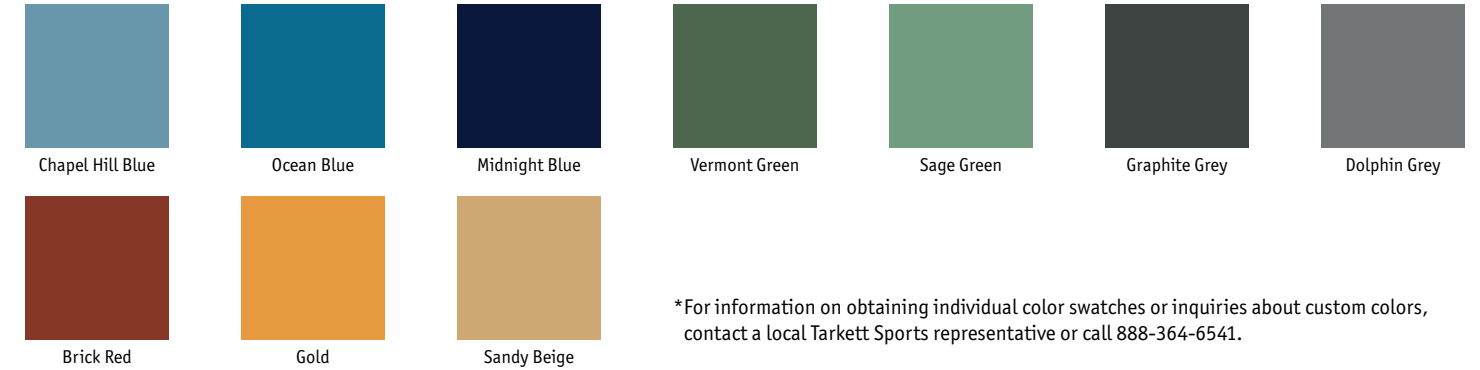

- Low TVOC emissions
- GREENGUARD Gold certified
- Requires no harsh chemicals
- Utilizes no solvents

- 100% recyclable*
- Contains recycled content
- Allows potential overlay

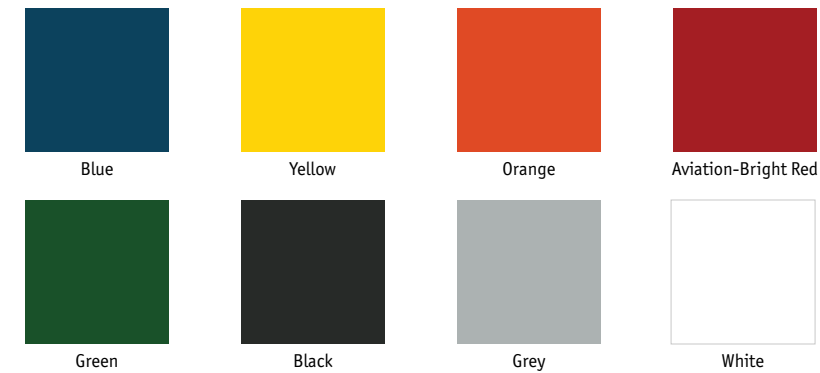

*Recycling facilities may not exist in your area. Transportation of the material may be required.

Standard Surface Colors*

*For information on obtaining individual color swatches or inquiries about custom colors, contact a local Tarkett Sports representative or call 888-364-6541.

A Higher Standard of Indoor Air Quality

Children are more sensitive to poor indoor air quality than adults. For them, a higher standard of health and safety is needed. GREENGUARD Gold identifies flooring that goes above and beyond typical indoor air quality standards, exceeding the requirements of California Section 01350. It is recognized by the CHPS Best Practice Manual for K-12 Schools and the LEED building rating system. As a GREENGUARD Gold floor, PolyTurf Plus Pad and Pour offers recognized protection for those most sensitive to poor indoor air quality. Choose PolyTurf Plus for more than just a sports floor. Choose it for peace of mind.

Tarkett Sports is a division of the Tarkett Group, which was established in 1886. The Tarkett Group has now reached over \$2.5 billion in annual sales and is a global leader in commercial, residential, and sports flooring. Tarkett Sports surfacing solutions include hardwood and synthetic basketball courts, volleyball courts, multipurpose gymnasium floors, weight room flooring, running tracks, and its world-renowned FieldTurf artificial turf.
